Since 2023, Technature has become a "société à mission" (status created by the French "Pacte" law in 2019), demonstrating a strong commitment to Corporate Social Responsibility (CSR). This policy is reflected in nine major commitments, perfectly aligned with the United Nations Sustainable Development Goals (SDGs).

Our approach, named WoW Impact, embodies our sustainable vision and was recognized in 2024 by the prestigious Ecovadis and B Corp certifications, rewarding our efforts to create a positive impact on the society and the environment.

LOGISTIC
CENTER

«Since its creation in 1996, Technature has become a key player in the cosmetics industry, combining passion with controlled growth. What makes us unique? Our ability to take on complex challenges with agility. We support our clients at every stage, from the conception of innovative ideas to the production of finished products ready for sale.»

PIERRE MORVAN - CEO

A turnkey service

**An innovative idea? A new brand to launch?
A customized cosmetic product to develop?
Technature supports you from design
to manufacturing, with a complete and
personalized service to turn your ideas into
exceptional products.**

02. FORMULATE

Two options are available:

- Ready-to-use formulas designed by our experts.
- An exclusive creation where every detail is customizable for a unique and distinctive skincare product.

Objective: a guaranteed Wow effect !

04. MANUFACTURE

Our production sites meet the highest standards of quality and flexibility to serve brands of all sizes:

- **Dirinon:** specialist in cosmetic powders (loose, compact, granulated).
- **Le Relecq-Kerhuon:** expert in white cosmetic (creams, serums, lotions, milks...) and hydrogel masks/patches.
- **Brest (2025):** a third site under development to expand our production capacity.

01. SUPPORT

From inspiration to the finished product, we guide you through every step: formulation, regulation, manufacturing, and packaging. Our mission? Bringing your cosmetic projects to life with expertise and creativity.

03. REGULATE

Cosmetic regulations are complex and vary according to markets. Our dedicated team ensures your products comply with european regulations (PIF, labeling, testing), chinese regulations (CSAR), and U.S.A regulations (MOCRA). We support you in creating the necessary documents for export, import, and commercialization, ensuring a worry-free market launch.

05. FILL

To give your brand's products a clear and impactful visual identity, we offer a variety of packaging and printing options. Technature provides recyclable and more eco-friendly packaging solutions, such as doypacks, paper sachets, and cardboard powder dispensers.

Our product offer

01.

POWDER MASKS

Peel-off masks: Technature's expertise and know-how.

Upon contact with water, the powder rubberizes thanks to its high marine alginate content. Its unique feature? The peel-off mask can be removed in one piece and does not require rinsing with water. Other powder masks: shaker masks®, thermic masks, rinse-off masks...

02.

READY-TO-USE MASKS

These masks do not require mixing and are ready to use:

- Sheet masks (cotton, organic cotton, stretch, charcoal, plant-based fibers...)
- Biocellulose masks and patches
- Hydrogel masks and patches
- Stick masks, cream masks, gel masks

03.

SKINCARE

Gels, creams, serums, milks, scrubs, butters, massage oils, hygiene products, foams, exfoliating pastes...

04.

COSMETIC POWDERS

Powder skincare products to be rehydrated or used directly: scrubs, foaming cleansers, hygiene products, compacted powders...
