Hydrogel masks & patches

FULL SERVICE

INNOVATION - FORMULATION - REGULATION - MANUFACTURING - FILLING

Hydrogel, what is it?

The hydrogels of Technature are made of natural polymers named : carrageenans.

They are polysaccharides that constitute the cell walls of various red algae. Therefore, this matrix composed of carrageenans (and water) creates a filmogenic gel that spreads the incorporated active ingredients on the skin. With it's unique gel-texture, hydrogel masks and patches are must-have beauty care products!

Technature invested in a range of machinery 10 years ago to manufacture and package hydrogels of natural origin. This expertise and in-house mastery make the company the only european player capable of producing all types of hydrogels in its own factories.

- Whether they come in the form of face masks or eye contour patches, hydrogels are easy to use and suitable to all facial shapes like a second skin.
- As usual with Technature products, masks and patches are customizable (shapes, formulas, colors, ...) according to your needs and your terms of service.

HYDROGEL SUPERHEROES MASK

REF: 7Y0011A

THE + PRODUCT

This superheroes mask is made up of natural polymers: carrageenans. These polysaccharides, constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. This glitter mask will help you to reduce the first signs of time and will enlighten your eyes.

96.9% of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

D-Panthenol	D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.
Collaxyl	It is a patented peptide of the collagen structure. This property improves the synthesis of type IV collagen and type 5 laminate as well as the differentiation of epidermal cells (ex vivo tests).
Eyeliss	Eyeliss is a combination of 3 active molecules whose combination reduces under-eye puffiness (In vivo tests). Eyes are illuminated.
Osilift	As a 100% natural sugar tensor, Osilift® is a purified fraction of polysaccharides from oats. Very high molecular weight, this source of complex sugars, adheres to the skin surface in a lifting, continuous and cohesive film that firms and tones the skin (In vitro tests).

RITUAL OF BEAUTY

Open carefully the sachet. The mask is placed between two transparent sheets. Remove the first sheet of protection. Then, apply the mask on the face and press gently to make it stay on the skin. Leave it act 10 to 15 minutes and remove the mask.

Precaution for use: in case of eye contact, rinse with water.

HYDROGEL EYE PATCHES

REF: 7Y0013A

THE + PRODUCT

Hydrogel eyes patches, with a unique and fresh texture, are made up of natural polymers: carrageenans. These polysaccharides, constituting the walls of red seaweed, are associated with water to form a fresh filmogenic gel. Easy to use, this mask adapts to the eye contour like a second skin. This active ingredient combination provides comfort and radiance to the eye contour. The look is fresh and full of vitality.

96,5% of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

Eyeliss	Eyeliss is a combination of 3 active molecules whose combination helps to reduce under-eye puffiness (In vivo tests). Eyes are illuminated.
D-Panthenol	D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and flexibility.
Floral water of cornflower	Genuine pleasure of the eyes, cornflower is also the protector. Calming, the floral water of cornflower refreshes the skin and soothes tired and puffy eyes. Astringent, it tones the skin tissue and restores radiance to the complexion.
Hamamelis extract	A shrub native to North America, witch hazel is also known as hazel witches. This plant, rich in flavonoids and tannins, is known for its astringent, purifying and soothing properties.

RITUAL OF BEAUTY

Open carefully the sachet. The patches are placed between two transparent sheets. Remove the first sheet of protection and apply a patch under each eye. Gently press to make them adhere perfectly to the skin. Leave it act 10 to 15 minutes and remove the patches.

Precaution for use: in case of eye contact, rinse with water.

HYDROGEL GOLD EYE PATCHES

REF: 7Y0019A

THE + PRODUCT

These patches are made up of natural polymers named carrageenan. These polysaccharides constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. This combination of anti-ageing and nourishing active ingredients, fights against first signs of time and regains suppleness and firmness to eye area. A real reflector of beauty and energy, gold provides to this care light and glamour.

97.4% of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

D-panthenol	D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.
Distilled barley water	This water of barley stems is obtained by distillation of barley thalli. Rich in nutrients, this plant water provides its emollient and soothing benefits to the skin.
Niacinamide	This active ingredient, from the B vitamins family, is ideal for improving skin hydration and fighting the first signs of ageing.
Sodium hyaluronate 20.000-50.000 DA	This hydrolyzed hyaluronic acid, of very low weight (between 20,000 and 50,000 DA) is known for its anti-ageing properties. Genuine rebalancing care, it maintains the natural moisture of the skin and its firmness by stimulating collagen production. The skin is gradually toned and regains suppleness and firmness. (In-vivo and in-vitro tests).
Sodium hyaluronate 100.000-130.000 DA	This form of hyaluronic acid, of very low molecular weight (between 100,000 and 130,000 DA), is known for its anti-ageing properties. It reduces the first signs of ageing of eye area and helps to make the structure of the skin smoother. It also retains the moisturizing properties of standard hyaluronic acid by stimulating the production of endogenous hyaluronic acid and collagen.
Sodium Hyaluronate 1 800 000-2 200 000 DA	This form of hyaluronic acid, of high molecular weight (between 1 800 000 and 2 200 000 DA) forms a non-occlusive moisturizing film providing the skin a soft and velvety appearance. It is a reference moisturizer.
Phylcare sodium hyaluronate	Hyaluronic acid is a molecule naturally present in the skin. Acting as a real sponge, hyaluronic acid has the property of attracting and retaining a quantity of water (up to 20 times its weight in water) by forming an elastic gel. Its exceptional capacity to retain water makes it a unique moisturizing active ingredient.
Aloe vera powder	From the family of liliaceae, aloe vera, or aloe, is a plant rich in polysaccharides, vitamins, trace elements and amino acids. This powder is obtained by pressure of the aloe vera sheet and then by cold freeze-drying, a process which preserves all the properties of aloe vera. Known for its softening and nourishing properties, Aloe vera is an ideal care for delicate skin.
Gold	Energy and light symbol, gold provides to this care shine and glamor. Incorporated in this care, gold with antioxidant and reflective radiance properties, provides a healthy and radiant appearance to the skin.

RITUAL OF BEAUTY

Open carefully the sachet. The eyes patches are placed between two transparent sheets. Remove the first sheet of protection and apply a patch under each eye. Gently press to ensure a good adhesion to the skin. Leave on for about 15 minutes then remove the patches.
Precaution for use: in case of eye contact, rinse with water.

V2-2024/09

HYDROGEL EYE CONTOUR MASK WITH ORGANIC BARLEY

REF: 7Y0020A

ECO CERT® COSMOS ORGANIC

THE + PRODUCT

Hydrogel is made up of natural polymers: carrageenans. These polysaccharides, constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. This form-specific mask envelops and perfectly matches the contour of the eye. **Certified Cosmos Organic**, this eye mask is the first organic hydrogel on the market. Its goal: to take care of your skin through a combination of natural and environmentally friendly ingredients. A natural youth cure for a sublimated look!

99.4% of ingredients of natural origin

34.2% of the total ingredients are from **Organic Farming**

PROPERTIES OF THE INGREDIENTS

Barley stem water	The water of barley stems is obtained by distillation of barley thalli. Rich in nutrients, this plant water has emollient and soothing benefits.
Albizia Julibrissin extract	Better known as the Acacia of Constantinople or Silk Tree, Albizia julibrissin, is a tree native to East and South Asia. Albizia julibrissin extract reduces the pigments of the eye contour (in vitro tests).
Sodium hyaluronate	Sodium hyaluronate in the presence of water is transformed into hyaluronic acid directly into the formula. Hyaluronic acid is naturally present in the skin and acts as a real sponge to attract and retain a significant amount of water. It plays an essential role in the integrity of the cutaneous structure and in the regulation of the hydration of the skin.
Phytospherix™	Phytospherix ™ is a completely natural form of glycogen, sourced and produced from plants by a new patent green process in Canada. It is dermatologist tested, non-irritating. Moisturizing and anti-ageing ingredient, it revitalizes the skin by improving its softness, reducing age spots and maintaining its hydration. A unique botanical extract with effective benefits for the skin.

RITUAL OF BEAUTY

Open carefully the sachet. The patches are placed between two transparent sheets. Remove the first sheet of protection and apply a patch under each eye. Gently press to make them adhere perfectly to the skin. Leave it act 10 to 15 minutes and remove the patches.

Precaution for use: in case of eye contact, rinse with water.

V4-2024/09

SPARKLING LOOK PATCHES – INFUSED HYDROGEL

REF: 7Y0029A

SPECIAL FEATURE

Infused with plants, these eye patches have a unique and active texture, due to the natural polymers that they are made of: carrageenans. These polysaccharides, which form the cell walls of red algae, are combined with water to form an ultra-fresh film-forming gel that perfectly hugs the eye area for targeted action. To regain a rested and sparkling look, anti-oxidant rooibos leaves, a relaxing anone extract and hyaluronic acid are incorporated. The signs of fatigue are just a bad memory!

97.99 % of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

Anone extract

Anona (or cherimoya) is a fruit from the cherimoya tree, native to South America. It is known to be a super fruit that the Incas cultivated. This active anona extract has CBD-like effects. Its mode of action is based on the following principle: molecules belonging to the same family as CBD (cannabinoids) have the ability to activate specific receptors allowing to have beneficial effects on the body without harmful side effects, unlike the CBD. It is based on this principle and by transposing it to the skin that this active ingredient was developed. It helps the skin adapt to resist different stresses, thus improving its health and well-being, which has a direct impact on its appearance.

Rooibos leaves

A cousin of the acacia, rooibos is a plant that grows exclusively in South Africa and means "reddish bush" in Afrikaans. The particular conditions of the climate (hot and dry) and the soil (poor and acidic) of its environment forced it to adapt, in particular by producing a significant amount of anti-oxidants. In addition to its anti-oxidant properties and ability to fight stress, it is also known for its soothing benefits.

Sodium hyaluronate

Sodium hyaluronate corresponds to the sodium salt of hyaluronic acid. The latter is one of the most important building blocks of the skin. Thanks to its strong water retention power, it plays an essential role in the integrity of the skin structure and in the regulation of skin hydration. Sodium hyaluronate of different molecular weights are associated within this formula for complementary actions. One, of very low molecular weight (20 to 50 kDa), helps rebalance the skin's natural hydration. The second, of molecular weight between 100 and 130 kDa, has anti-aging properties that help reduce the first signs of aging of the eye contour area. The third, of medium molecular weight (1000 to 1800 kDa), targets long-lasting hydration. The fourth, of high molecular weight (1800 to 2200 kDa), forms on the surface of the skin a non-occlusive moisturizing film (in vivo test) which gives a soft and velvety appearance.

RITUAL OF BEAUTY

Open the sachet: the patches are placed between two transparent protective sheets. Peel off one of the protective sheets, take the patch and position it under the eye. Press gently to make it adhere perfectly to the skin and do the same with the second patch. Leave on for about 15 minutes then remove the patches.

V3-2024/08

EYE BOOSTER HYDRA-PATCHES INFUSED HYDROGEL

REF: 7Y0039A

SPECIAL FEATURE

Infused with flowers, these eye patches have a unique, active texture, thanks to the natural polymers they contain: carrageenans. These polysaccharides, which make up the cell walls of red algae, are combined with water to form an ultra-fresh, film-forming gel that hugs the eye contour perfectly for a targeted action. Active ingredients from butterfly pea flowers, rose and pomegranate are combined with caffeine and D-panthenol to awaken the eyes. Fatigue marks are replaced by a revitalized look.

97.4 % of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

Butterfly pea flower extract	Butterfly pea, with its intense blue flowers, is a medicinal plant that grows like a vine in Southeast Asia. It is also used to dye fabrics blue and to colour foods. Anthocyanins, responsible for its remarkable blue colour, are antioxidants present in significant quantities in the flower, making butterfly pea an active ingredient of choice for improving the appearance of skin around the eyes. Its relaxing properties will delight tired eyes.
Moisturizing active ingredient derived from rose *MAT314*	Derived from the petals of the Rosa Gallica rose, also known as the apothecary's rose, this active ingredient owes its properties to its richness in polyphenols and carbohydrates. It provides skin with immediate and long-lasting hydration, reduces signs of fatigue by reducing puffiness and dark circles, and improves skin radiance (in vivo tests).
Pomegranate-vitamin C anti-aging complex *MAT227*	This anti-ageing active ingredient is a complex combining pomegranate flower extract and a stable form of skin-absorbable vitamin C. These two ingredients, renowned for their antioxidant and collagen-boosting properties, combine their efficacy in this complex to act on wrinkles for a more radiant look (in vivo test).
Caffeine	Stimulating and energizing, caffeine is known to improve the appearance of the skin. Ideal for caring for and revitalizing the eye contour area, it helps to awaken and sublimate the eyes.
D-panthenol	D-panthenol, also known as Provitamin B5, provides the skin with its recognized moisturizing and relaxing properties, restoring softness and comfort.

RITUAL OF BEAUTY

Open the sachet: the patches are in between two transparent protective sheets. Detach one of the protective sheets, take the patch and position it under the eye. Press gently to ensure perfect adhesion to the skin, then do the same with the second patch. Leave on for around 15 minutes, then remove the patches.

V2-2024/08

ANTI-FATIGUE EYE PATCHES
CUSTOMIZABLE HYDROGEL FABRIC
REF: 7Y0042A

SPECIAL FEATURE

Express your unique style with these customizable hydrogel fabric patches! Hydrogel is an active and natural texture composed of polysaccharides derived from red algae called carrageenans. When combined with water, these polysaccharides form an ultra-fresh, film-forming gel that perfectly adheres to the skin. The incomparable softness of the 100% Lyocell fabric immediately invites you to relax.
Whether applied at the start or end of the day, these patches recharge the skin's energy levels, leaving eyes looking fresh and awake, ready to face any challenge. Caffeine, sodium hyaluronate, energizing anti-aging polysaccharide and barley water concentrate all their efforts to leave the eye contour area looking its best.

99% ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

Plant glycogen *MAT313*	This active ingredient is a glycogen obtained from corn kernels through a patented ecological process. It is a polysaccharide that provides the skin with the necessary energy to promote the production of collagen and hyaluronic acid, enabling it to reduce wrinkles and fine lines and improve skin hydration (in vitro and in vivo tests).
Sodium hyaluronate (1800 - 2200 kDa)	Sodium hyaluronate is the sodium salt of hyaluronic acid. The latter is one of the most important components of the skin. Its exceptional ability to retain water makes it a unique moisturizing ingredient. The sodium hyaluronate used in this formula has a high molecular weight (1800 to 2200 kDa). It forms a non-occlusive hydrating film on the surface of the skin (in vivo test), giving a soft and velvety appearance.
Caffeine	Stimulating and energizing, caffeine is known to improve the appearance of the skin. Ideal for revitalizing and taking care of the eye contour, it helps to awaken and enhance the look.
Organic barley water	This barley stem water is obtained by distillation of barley thallus. Rich in nutrients, this plant water revitalizes and revives the radiance of the skin.
Organic plant glycerin	Thanks to its emollient properties, glycerin provides the skin with softness and protection, increasing the skin barrier function.

RITUAL OF BEAUTY

Open the sachet. Remove the transparent protective sheet, take the patch and place it under the eye. Gently press to make sure it adheres perfectly to the skin, then do the same with the second patch. Leave on for approximately 15 minutes, then remove the patches.
Precautions for use: in case of eye contact, rinse with water.

V2-2024/09

RELAXING EYE PATCHES - VERBENA-INFUSED HYDROGEL

REF: 7Y0053A

COSMOS ORGANIC

SPECIAL FEATURE

Give your eyes all the benefits of a relaxing, comforting infusion with these verbena-infused eye patches, which combine lime blossom water and honey-derived active ingredients. The unique, active texture of these patches is due to the natural polymers they contain: carrageenans. These polysaccharides, which make up the cell walls of red algae, are combined with water to form an ultra-fresh, film-forming gel that hugs the eye contour perfectly for targeted action. After this infusion of well-being and relaxation, the effects of stress dissipate, leaving the eyes even more rested.

99.9% of ingredients of natural origin

27.6% of the total ingredients are from **Organic Farming**

PROPERTIES OF THE INGREDIENTS

Organic verbena leaves	Well-being and comfort are the sensations provided by verbena, an excellent skin ally with recognized relaxing and soothing properties. Little by little, it seems that stress no longer has a hold, to the great satisfaction of the skin.
Black BeeOme™ *MAT346*	This elixir is obtained through the fermentation of honey from a rare and resilient black bee. It cares for distressed skin by providing a protective role against the stresses it endures: it helps to maintain the balance of the skin's microbiome, strengthens the skin's barrier function, preserving its hydration, and reduces redness caused by external aggressions (in vivo tests). The skin becomes more radiant and regains its comfort.
Organic lime blossom and organic barley waters	Lime blossom water is a genuine stress-reliever, inviting you to calm and relaxation. In addition to its relaxing properties, it awakens the skin's luminosity. This barley stem water is obtained by distilling barley thallus. Rich in nutrients, this plant water revitalizes and revives skin radiance.
Sodium hyaluronate	Sodium hyaluronate is the sodium salt of hyaluronic acid. Hyaluronic acid is one of the most important building blocks of the skin. Its exceptional capacity to retain water makes it a unique moisturizing active ingredient. The sodium hyaluronate used in this formula has a high molecular weight (1800 to 2200 kDa). It forms a non-occlusive moisturizing film on the skin's surface (in vivo test), giving a soft, velvety appearance.
Organic plant glycerin	Thanks to its emollient properties, glycerin provides the skin with softness and protection, enhancing the skin's barrier function.

RITUAL OF BEAUTY

Open the sachet: the patches are housed between two transparent protective sheets. Detach one of the protective sheets, take the patch and place it under the eye. Press gently to ensure perfect adhesion to the skin, and do the same with the second patch. Leave on for around 15 minutes, then remove the patches.

LOVELY LIP MASK HYDROGEL

REF: 7L0003A

THE + PRODUCT

The hydrogel lip mask is composed of natural polymers: carrageenans. With its unique texture, it creates a fresh filmogenic gel and fits perfectly to the lips like a second skin. The lovely lip mask provides fun to your beauty routine. Known for their moisturizing properties, the active ingredients of this patch work together to protect, soften and improve the lip area.

97.3% of ingredients of natural origin

PROPERTIES OF INGREDIENTS

Cellactive®-hydro	The CELLACTIVE®-HYDRO is an active ingredient of natural origin obtained from applesS This unique active ingredient with exceptional moisturizing properties enables the skin to regain softness and suppleness.
D-Panthenol	D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.
Sodium hyaluronate	Sodium hyaluronate in the presence of water is transformed into hyaluronic acid directly in the formulas. Hyaluronic acid is naturally present in the skin and acts as a real sponge to attract and retain a significant amount of water. This formula combines two sodium hyaluronate of different molecular weights. - Sodium hyaluronate of very low molecular weight (100 to 130 kDa) is recognized for its anti-ageing properties. It helps to remove the first signs of time and enables intense hydration. - Sodium hyaluronate of medium molecular weight (1000 to 1800 kDa) is known for its long-lasting hydration.

RITUAL OF BEAUTY

Remove your make-up. Open carefully the sachet, the mask is placed between 2 transparent sheets. Remove the first sheet of protection and apply the patch on your lips covering the entire surface. Leave on for 15 minutes then remove.

Do not rinse.

HYDROGEL FACE MASK

REF: 7V0001A

THE + PRODUCT

This hydrogel face mask is made up of natural polymers: carrageenans. These polysaccharides, constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. Easy to use, this mask adapts to all forms of the face like a second skin. Enriched with anti-ageing active ingredients, they act together to fight the first signs of times, soften and improve skin comfort.

97.6% of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

D-Panthenol	D-panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.
Sodium hyaluronate	Sodium hyaluronate in the presence of water is transformed into hyaluronic acid directly into the formula. Hyaluronic acid is naturally present in the skin and acts as a real sponge to attract and retain a significant amount of water. It plays an essential role in the integrity of the cutaneous structure and in the regulation of the hydration of the skin. The sodium hyaluronate used in this formula is of high molecular weight (1800 to 2200 kDa). Applied to the superficial layers of the skin, it forms a non-occlusive moisturizing film that gives the skin a soft, velvety appearance.
Anti-ageing active ingredient	This active ingredient contains polysaccharides from an Indian plant, Cassia angustofolia, used in Ayurvedic medicine for over 1000 years. They reduce the production of cortisol, stress hormone and increase the synthesis of hyaluronic acid and collagen (in vitro tests). Thus this active ingredient helps to fade the signs of time and enables the skin to regain its beauty.

RITUAL OF BEAUTY

Open carefully the sachet. The mask is placed between two transparent sheets. Remove the first sheet of protection. Then, apply the mask on the face and press gently to make it stay on the skin. Leave it act 10 to 15 minutes and remove the mask.

Precaution for use: in case of eye contact, rinse with water.

HYDROGEL GOLD FACE MASK

REF: 7V0010A

THE + PRODUCT

The Hydrogel mask is made up of natural polymers named carrageenan. These polysaccharides constituting the walls of red algae, are associated with water to form a fresh filmogenic gel. This combination of anti-ageing and nourishing active ingredients, fights against first signs of time and regains suppleness and firmness to the skin. Gold soaked in this mask provides a touch of glamour. It will reveal the radiance of your skin.

97.6% of ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

D-Panthenol	D-Panthenol also called provitamin B5, has many benefits. Soothing and moisturizing, it improves comfort and suppleness.
Combined sodium hyaluronate	This combination of hyaluronic acid salts, of different molecular weights (20-50kDa, 100-130kDa, 1000-1800kDa, 1800-2200kDa) enables to combine all the properties of this molecule. Known for their anti-ageing and moisturising properties, sodium hyaluronate of different molecular weights, boost the production of collagen and hyaluronic acid, attract and retain a significant amount of water (up to 20 times their weight in water), form a non-occlusive moisturising film, for a gradually toned skin, softened and firmed.
Aloe vera (powder)	From the family of liliaceae, aloe vera, or aloe, is a plant rich in polysaccharides, vitamins, trace elements and amino acids. This powder is obtained by pressure of the aloe vera sheet and then by cold freeze-drying, a process which preserves all the properties of aloe vera. Known for its softening and nourishing properties, Aloe vera is an ideal care for delicate skin.
Gold	Energy and light symbol, gold provides to this care shine and glamour. Incorporated in this care, gold with antioxidant and reflective radiance properties, provides a healthy and radiant appearance to the skin.

RITUAL OF BEAUTY

Open carefully the sachet. The mask is placed between two transparent sheets. Remove the first sheet of protection. Then, apply the mask on the face and press gently to make it stay on the skin. Leave it act 10 to 15 minutes and remove the mask.

Precaution for use: in case of eye contact, rinse with water.

V3-2022/05

TIME REVEAL MASK

REF: 7V0016A

SPECIAL FEATURE

Our Time Reveal Hydrogels are the result of innovative technology that combines advanced formulation expertise with a sensory experience: skincare products that visibly indicate the application time through a gradual change in appearance. As the application time progresses, the mask transforms. Initially opaque, it becomes translucent, visually revealing the stages of the treatment and the optimal moment to remove it. With this unique beauty routine, there's no need for a timer!
The formula of this mask is based on a matrix of carrageenans, polysaccharides derived from red algae that give it its unique and active texture. At the heart of this matrix, collagen is combined with a marine active ingredient specifically selected for its anti-wrinkle properties. Its 2-hour application time is ideal for revitalizing and brightening the face.

98.7% ingredients of natural origin

INGREDIENT PROPERTIES

Marine collagen	Major constituent of the skin, collagen is responsible for its structural support and resistance. Marine collagen, with an identical structure to that of the skin, has anti-aging and moisturizing properties.
Wrinkle-filling active ingredient *ECH1193*	This marine exopolysaccharide is the perfect ally for skin lacking density. Its high molecular weight gives it a special affinity for the skin, allowing it to act on the skin's surface (ex vivo test): it provides an immediate plumping effect that smooths wrinkles (in vivo test). It is also a postbiotic: its assimilation by the skin microbiota releases smaller sugars that can penetrate the skin (in vitro test). Since these sugars are components of hyaluronic acid, they help boost its synthesis (in vitro tests). It also acts on collagen and elastin synthesis, helping to redensify the skin matrix (in vitro and in vivo tests).
Grape extract	Naturally rich in antioxidants, grapes help beautify the skin by providing it with vitality and protection.

BEAUTY RITUAL

Open the sachet. The mask is placed between two transparent protective sheets and comes in two parts. Remove the first protective sheet, take the top part of the mask, and apply it to the upper half of your face. Then apply the bottom part to the lower half of your face. Gently press to ensure it adheres to the skin. Leave on for 2 hours, until the gel becomes translucent, indicating that the treatment has optimally delivered its active ingredients. Then remove the mask. Do not rinse.

V1-2026/03

LAGOON HYDROGEL EYE PATCHES

REF: 7J0001B

SPECIAL FEATURE

Escape to the shores of paradise and treat your eyes to a tropical getaway: lagoon-blue patches with exotic fruit extracts. The unique, active texture of these patches is due to the natural polymers they contain: carrageenans. These polysaccharides, which form the cell walls of red algae, are combined with water to form an ultra-fresh, film-forming gel that hugs the eye contour perfectly for targeted action. Illuminating mango and pineapple extracts combine with hydra-energizing marine active ingredient and sodium hyaluronate for a sensorial experience you won't forget.

99.6% ingredients of natural origin

PROPERTIES OF THE INGREDIENTS

Hydra-energizing marine complex	This anti-aging, energizing and moisturizing active ingredient is a marine complex offering a unique source of plant taurine. It combines an extract of the red seaweed Jania rubens, rich in plant taurine, to boost skin energy, and a carrageenan (a polysaccharide extracted from red seaweed) with moisturizing and protective properties. This complex provides a hydrating flash effect (in vivo test - after a single application) and an anti-fatigue boost (in vivo test - after a single application) by recharging the skin with energy. These properties enable it to smooth the skin, reduce signs of fatigue and the first signs of aging, and protect the skin's youthful capital by delaying the formation of wrinkles (in vivo tests).
Pineapple extract	Native to Brazil and Argentina, pineapple is found in all tropical regions. A key ingredient for revitalizing the complexion, it is also known for its illuminating and softening properties.
Mango extract	Mango is known for its richness in vitamins and antioxidants, giving it brightening, softening and protective properties.
Sodium hyaluronate	Sodium hyaluronate is the sodium salt of hyaluronic acid. Hyaluronic acid is one of the most important building blocks of the skin. Its exceptional capacity to retain water makes it a unique moisturizing active ingredient. The sodium hyaluronate used in this formula has a high molecular weight (1800 to 2200 kDa). It forms a non-occlusive moisturizing film on the skin's surface (in vivo test), giving a soft, velvety appearance.
Plant glycerin	Thanks to its emollient properties, glycerin provides the skin with softness and protection, enhancing the skin's barrier function.

RITUAL OF BEAUTY

After carefully washing your hands, open the jar and remove the lid, placing it upside down on a clean surface. Take a patch with the spatula and place it under the eye. Press gently to ensure perfect adhesion to the skin, then do the same with the second patch. Leave on for around 15 minutes, then remove the patches.
